

Membership Application

Overview

The broad goal of the CFAR program is to coordinate clinical and basic AIDS research activities through provision of core support facilities, short-term developmental funds, support of seminar series and symposia, and community-based education programs. The CFAR at CWRU/UH is organized into the following scientific working groups and provides funding for three basic science facilities and two clinical research facilities:

CORE SUPPORT FACILITIES

- Developmental
- Immune Function
- Virology, Next Generation Sequencing & Imaging
- Clinical Services
- Uganda Laboratory
- Proteomics

SCIENTIFIC WORKING GROUPS

- Immune Mechanisms and Pathogenesis
- Virology and Cure
- HIV, Co-infections and Co-morbidities

Membership Levels

Full Members- are full-time faculty of CWRU and affiliated institutions; University Hospitals (UH), Cleveland Clinic (CC), Veterans Administration Medical Center (VAMC) and MetroHealth Medical Center (MHMC) whose clinical and or basic research interests are closely aligned with CWRU CFAR programmatic priority areas, such as Cure, Pathogenesis, Treatment and Prevention. Full membership is required for eligibility to apply for Developmental Awards, the CFAR ★ STAR medical student training program, and CFAR mentoring.

Associate Members- are other members the CFAR community who have an affiliation with CWRU, UH, MHMC, CC, or the VAMC as well as students and postdocs who are interested in HIV/AIDS or work in CFAR member's laboratories, and wish to be informed about CFAR activities.

International Members- are members of the CFAR international community who have an affiliation/collaboration with CWRU, UH, MHMC, CC, or the VAMC, as well as students and postdocs who are interested in HIV/AIDS or work in CFAR member's laboratories

All members will receive the CWRU CFAR electronic newsletter on HIV-related events and announcements.

If you are interested in becoming a member of the CWRU/UH Center for AIDS Research, please complete and return the questionnaire below along with your current CV to:

Brinn Omabegho

Membership Questionnaire

1. Please provide a brief summary of your research, describing how it relates to AIDS research. If you are new to AIDS research please share you're your area of interest.

2. Are there specific CFAR Cores and/or Scientific Working Group(s) that you are interested in?

3. The CFAR Developmental Core provides mentoring to encourage the development of junior faculty who are pursuing HIV/AIDS research, by providing guidance in the areas of grants, research, and publications. Is this service of interest to you? In what specific areas?
