6. SCME
 - a. Sunny reports that the Block 3 action plan was submitted to CME. MSG improvements were suggested by SCME and were positively received. Four clinical immersion sites got terrible reviews (presumably because of no-shows). Dan Wolpaw will speak with Block Leaders about making sure communication lines are open so that students don't waste time during these weeks.
 - b. Block 4: End of week feedback form is on ePortal so lecturers can get real time feedback. There have been about 10 feedbacks per week. Feedback is sent directly to lecturers at the end of the week.
 - c. Electives: Faculty want to make them required, but students would prefer for better communication of information. Students would like the electives sent out a week in advance. Some faculty want a minimum number of students...which is difficult to achieve when students don't have an idea of when and how long courses will last. SCME will survey the class.
7. Peer Handoff

 - c. CSR will start planning this and get back to PH
8. Social
 - a. Gokarting doesn't open until May 25th
 - b. End of BBQ: no grills can be found. Nilu will try to contact UPP about borrowing grills from them. Perhaps have to do it at the Waldorf.
