

Mar 30 Minutes

Monday, March 30, 2009
1:05 PM

Catch-up:

- Everyone is assigned to each block (and has made contact with them)
 - Sharon will be going to the FCM block meetings

1. Block 4

- There have been some comments about the order of topics in lecture/IQ. Block 3 had lectures before IQ; Block 4 does then concurrently but students wonder why.

★• ACTION PLAN:

- Block 4 is a change from Block 3 and this is natural. Block 4 will not be changing the order.

- What can we do to improve Thursday review sessions? Attendance has dropped lately.

★• ACTION PLAN:

- SCME will send out a survey about how useful Thursday lectures are and whether people are watching the video streams.
- Dr. Wolpaw will speak to IT about figuring out how many people are accessing the videostream

2. Weekly Feedback

- For next year, the feedback will be within the lecture page on the eCurriculum
- Siu Yan is currently sending the feedback to Block Leaders, Faculty and the Curricular Office
- SCME can email to ask how many people have submitted responses

★• ACTION PLAN

- SCME will continue to monitor the pilot and will discuss changes at future meetings

3. Electives Meeting

- 12:30-1:30 next Monday will be the meeting for elective overhaul
- Terry and Amy will be in attendance.

4. Clinical Year Overview

- Workshops will be scheduled so that all students can understand an overview of how the clinical year schedules work
- Dr. Dan Wolpaw will offer an optional session

5. ePortfolio

- It would be nice to have samples available for students to have an idea of what to write

★• ACTION PLAN:

- Dr. Wolpaw will email Jennifer about having templates placed online to aid first years.

6. LCME Site Visit

- Not a single citation in the education area

★ • ACTION PLAN:

- Email Dr. Ornt about getting some of the feedback made public
