Diabetes Discovery Day:  
Ask, Explore, Uncover and More

Come join us for a special diabetes event!

Join University Hospitals Rainbow Babies & Children’s Hospital for the Second Annual Diabetes Discovery Day. At our special Center for Childhood Diabetes, Activity & Nutrition diabetes event, you will be able to:

- Ask world-renowned speakers Dr. William Tamborlane and Dr. Saul Genuth about advances in diabetes research
- Explore new advances in diabetes care, talk to diabetes experts, come to the vendor fair
- Uncover your inner artist and scientist at the art and science fair
- More – participate in one of the sessions on the latest advances in diabetes care and learn about nutrition and available support
- The day will also include free snacks, product fair for families, giveaways, activities and raffles for younger children

Nominate someone for the UH Rainbow Diabetes Award!
Do you know somebody you would like to nominate for his or her contribution to the diabetes community? Email RainbowDiabetesDay@UHhospitals.org to fill out a nomination form.

Uncover your Inner Artist or Scientist!
- Enter the UH Rainbow Babies & Children’s Hospital Diabetes Discovery Day Art and Science Fair
- The winning entry will be selected for the UH Rainbow Babies & Children’s Hospital Diabetes Cookbook cover and other entries may also be featured
- Submit your family’s favorite recipe for the UH Rainbow Babies & Children’s Hospital Diabetes Cookbook

For more information, to enter the Art and Science Fair, to nominate someone for the UH Rainbow Diabetes Award or to submit a recipe, please call Michelle at 216-286-6468 or email RainbowDiabetesDay@UHhospitals.org

There’s only one Rainbow.
