Improving Community's Health Through Research: Pancreas, Colon and Rectal Cancer
Thursday, October 10, 2013
6-7pm
UH Bedford Medical Center, Conference Room One

Smita Krishnamurthi, MD, will present the results of research on cancers of the pancreas, colon and rectum. She will review how the results of research have affected:
* How medical professionals choose treatments
* The way health decisions are made
* The health of the community

This conversation will also include a discussion on:
* How research participants are protected
* The need for community participation

This educational event will end with opportunities for the attendees and community to ask questions and give suggestions for research ideas that are important to their community.

Location
All classes are held at UH Bedford Medical Center, Conference Room One (located in the lower level of the Medical Office Building which is attached to the hospital, 44 Blaine Avenue, Bedford, OH, 44146).

Registration
Due to limited seating, reservations are required. To reserve your spot, call 440-735-4726.
Complimentary healthy refreshments will be provided.

**Contact**
Lori Robinson: 440-735-4726

This educational opportunity is being offered in partnership with the William T. Dahms MD Clinical Research Unit (DCRU) and supported by the research network of the Cleveland Clinical & Translational Science Collaborative (CTSC) in Cleveland, UL1TR000439, from the National Center for Advancing Translational Sciences (NCATS) component of the National Institutes of Health, to expand clinical/translational research resources available to both academic and community-based research programs.

**PRCHN Co-Sponsors Distinguished Speaker Presentation by Lawrence Green, DrPH**

**Wednesday, October 16, 2013, 12:00-1:15pm**
Wolstein Research Building Auditorium

*Lunch provided for first 50 attendees*

Lawrence W. Green, DrPH, DSc (Hon) Professor, Department of Epidemiology and Biostatistics Comprehensive Cancer Center and Center for Tobacco Research and Education University of California at San Francisco, School of Medicine.

- Originator of: "If we want more evidence-based practice, we need more practice-based evidence."
- Internationally known for his PRECEDE-PROCEED Model, used worldwide to guide health intervention design, implementation, and evaluation, leading to over 1000 published studies, applications and commentaries.
- Author of nearly 200 scientific papers, 160 book chapters/forwards, 46 books and monographs.
- First Director of the U.S. Office of Health Information and Health Promotion (Carter Admin), and served as Director of the CDC Office on Smoking and Health, CDC Office of Science and Extramural Research, CDC/WHO Collaborating Center on Global Tobacco Control and Research, and Director for Prevention Research and Academic Partnerships of CDC Public Health Practice Program Office.
- Distinguished Fellow in the Society of Behavioral Medicine, American Academy of Health Behavior, Society for Public Health Education. Recipient of multiple Distinguished Career Awards.

Keynote breakfast with Gil Van Bokkelen, PhD, Chairman and CEO of Athersys

Panel Discussions with discovery experts and School of Medicine faculty

Conference: From Neurodegeneration to Brain Health
October 25-26, 2013
Wolstein Research Building Auditorium

This Conference brings together the most distinguished brain scientists to explore the current biological, psychosocial and ecological aspects of memory loss disorders. Held on the Case Western Reserve University School of Medicine campus near University Circle in Cleveland, Ohio, the symposium will feature a special evening at the Museum of Contemporary Art in its new building.

Registration: www.brainhealth2013.com

Workshop: Regulatory Affairs 101: Navigating the FDA Process
Tuesday, November 12, 2013, 1:00-5:00pm
Wolstein Research Building Auditorium

This workshop is designed to provide investigators with awareness of regulatory requirements and acceptable standards for the conduct of clinical trials and the protection of human subjects. The desired outcome from this workshop is that researchers be able to understand the function of the FDA and Investigator responsibilities for those holding Investigational New Drug (IND) applications or Investigational Device Exemptions (IDE) or those investigators conducting research under and IND or IDE.

Registration: http://casemed.case.edu/ctsc/fda101/

Continuing Medical Education Credits:
Case Western Reserve University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Case Western Reserve University School of Medicine designates this live activity for a maximum of 3.75 AMA PRA Category 1 Credits(TM). Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Continuing Research Education Credits:
This program has been approved for 6 credits in the CWRU Continuing Research Education Credit (CREC) Program.
