

The Center for Proteomics and Bioinformatics in collaboration with the Department of Dermatology

is sponsoring the following presentations

Transcriptome and Proteome Analysis of UV and Hapten – Induced Effects on Human Skin

By Pratima Karnik, Ph. D. and Giri Gokulrangan, Ph.D.

Proteomic Analysis of Candida and Fusarium Biofilms

By Pranab Mukherjee, Ph.D. and Elizabeth Yohannes, Ph.D.

Cutaneous Proteome Analysis of a Psoriasiform Transgenic Murine Model

By Nicole Ward, Ph.D. and Kathleen Lundberg, M.S.

**Thursday, September 3rd , 2009 from 8:30 a.m. – 11:00 a.m.
Biomedical Research Building (BRB)
Room 105**
