

Searches for Goat Protocols and Procedures

The tables below contain links to searches of multiple databases for alternatives and refinements for a study involving a diabetic retinopathy goat model and several commonly used procedures. Construct your own queries with appropriate terms, or use the examples below if they are relevant.

Important! Pubmed MeSH Terms are specific words and phrases drawn from the NLM's controlled vocabulary. Use the [MeSH Terms Browser](#) to find the MeSH Terms most appropriate for your study. Substituting phrases not found in the MeSH vocabulary will **not** be effective.

Hot Tip! The [MAJR] qualifier identifies a MeSH Term which is a main topic of the article. Use [MAJR] in place of [MeSH] and [ALL] to find the subset of articles focussed on the search terms. Compare the "focussed" and "inclusive" examples below to see the effect of using the [MAJR] qualifier.

Replacement and Reduction:

The goal of these searches is to find models or systems which are more informative, to reduce animal numbers through better statistical methods, to replace species with ones more acceptable to society, and to replace animal use with in vitro or computer models, if possible.

| | PubMed | Agricola | Other |
|---|--|------------------------------------|---|
| Gene, condition or disease AND species | <i>focussed:</i> Insulin [MAJR] AND Goats [MAJR] <i>inclusive:</i> Insulin [ALL] AND Goats [ALL] | w=Insulin & (w=Goat + w=Goats) | |
| | <i>focussed:</i> "Diabetes Mellitus, Experimental" [MAJR] AND Goats [MAJR] <i>inclusive:</i> "Diabetes Mellitus, Experimental" [MeSH] AND Goats [ALL] | w=Diabetes & (w=Goat + w=Goats) | |
| | <i>focussed:</i> "Diabetic Retinopathy" [MAJR] AND Goats [MAJR] <i>inclusive:</i> "Diabetic Retinopathy" [MeSH] AND Goats [ALL] | w=Retinopathy & (w=Goat + w=Goats) | |
| | "Diabetes Mellitus, Experimental" [MeSH] AND ((Double [WORD] AND Blind* [WORD]) OR Placebo [WORD]) | | |
| Alternative Animal Models | "Diabetes Mellitus, Experimental" [MeSH] AND ("Animal Experimentation" [MeSH] OR "Models, Animal" [MeSH] OR "Models, Genetic" [MeSH]) | | MGI Insulin MGI Diabetes |
| | "Diabetic Retinopathy" [MeSH] AND ("Animal Experimentation" [MeSH] OR "Models, Animal" [MeSH] OR "Models, Genetic" [MeSH]) | | |

| Statistical Methods | "Statistics" [MeSH] AND ("Animal Experimentation" [MeSH] OR "Models, Animal" [MeSH]) | (w=Statistics + w=Statistical) & ((w=Sample & w=Size) + w=Power) | Statistics Core Hyperstat StatPages.net Power Analysis bibliography crossover designs |
| Teaching | "Teaching" [MeSH] AND ("Animal Experimentation" [MeSH] OR "Models, Animal" [MeSH]) | w=teaching & w=alternatives | NORINA |

Use the [PubMed MESH Terms Browser](#) to find terms to build your own queries.
Use [Pubmed Clinical Queries](#) for studies focussed on therapies.

Refinement:

The goal of these searches is to find alternate procedures which cause less pain or distress.

| | PubMed | Agricola | Other |
|-------------------------------|--|--|-----------------------------------|
| Euthanasia | "Euthanasia" [MeSH] AND Goats [ALL] | w=Euthanasia & (w=Goats + w=Goat) | Methods pdf Methods |
